

# Table/Stools Makeover

Two old pine kitchen table stools had seen better days and were looking stained, faded and a bit ugly. Prep was easy as all I had to do was lightly sand down the surfaces that I wanted to paint so within a few minutes I was ready to go.

I wanted to give them a fresh look leaving the legs their natural colour and painting the tops in Royal Exterior wood finish.

I chose Drawing Room Gold and Saffron to give them a fresh and enticing, fun feel.

After one coat I liked the look but decided to apply a second coat to increase the depth of colour.

These shabby old stools are now transformed in to chic, modern pieces of furniture with bright, fresh colours. They look gorgeous being used outside as side tables for a spot of relaxation in the sunshine and look equally lovely inside the house.

With sample tins only costing £4.00 each this transformation was true value for money!
