ROYAL EXTERIOR & INTERIOR 	<p>Protek's Royal range is a superior wood finish that has been specifically designed to give long lasting, hard wearing protection. This wood stain has a thicker paint-like consistency with a soft lustre that allows the wood grain to show through.</p> <p>The unique formulation is a water based acrylic and alkyd hybrid that incorporates a polyurethane dispersion based on Linseed Oil. Recommended for hardwood, joinery and premium buildings.</p> <p>Royal Exterior & Interior is available in an extensive colour range that is classic, contemporary and fits perfectly with modern design. Royal is a two coat application.</p>	1 litre 2.5 litres 5 litres 25 litres	58	Conservatories Windows Doors Summerhouses Log Cabins Gates Garden Furniture	6—10m ² /litre per coat Varies depending on porosity of timber. First coat will soak in more product than subsequent coats	2—5 years	Brush Roller Professional spray gun
WOOD STAIN & PROTECTOR 	<p>A multi-purpose versatile wood stain and protector that coats, colours and protects all garden wood. This product creates a micro-porous waterproof coating that contains a mould inhibitor.</p> <p>Protek Wood Stain & Protector is so good that it will even adhere to masonry and terracotta pots. Having a standard stain consistency it works beautifully with garden sprayers to speed up all of those big jobs. Two coats is all it takes to protect your wood with only one coat being required for fencing. Further coats increases the solidity and depth of the colour .</p>	1 litre 5 litres 25 litres	33	Sheds Wendy Houses Fencing & Trellis Animal Housing Pots & Planters	6—12m ² /litre per coat Varies depending on porosity of timber. CLEAR TOUGH COAT 	<p>This clear wood stain contains wax and acrylic that once dry, leaves behind a hardwearing coating that acts as a protective sealant.</p> <p>Clear Tough Coat has been designed as a top coat for Wood Protector for areas and buildings that will be subject to increased levels of weather exposure. The additional coating will help protect the colour underneath and act as an extra protective layer of water-proofing for all types of garden buildings.</p>	1 litre 5 litres 25 litres	Clear	Sheds Play Equipment Animal Housing	6—12m ² /litre per coat Varies depending on porosity of timber. First coat will soak in more product than subsequent coats	2—5 years	Brush Roller Sprayer
SHED & FENCE 	<p>Shed & Fence is a water-proof wood treatment that enhances the natural beauty of wood. This product is a cost effective wood stain that can be applied to planed (finished) as well as rough sawn timber. Available in traditional polys or new buckets.</p> <p>Contains was additives for extra protection of a water resistant coating. Shed & Fence is our basic economy range with a thin watery consistency that all garden sprayers handle brilliantly. Two coats gives great protection and lovely rich colours.</p>	5 litres 25 litres	12	Fencing Sheds Trellis Work Animal Housing	8—12m ² /litre per coat Varies depending on porosity of timber. First coat will soak in more product than subsequent coats	1—2 years	Brush Roller Sprayer
DECKING STAIN 	<p>Protek's Decking Stain has been specially formulated to give all types of timber decking an enriching colour that lasts. It is a water based acrylic and alkyd hybrid that incorporates a polyurethane dispersion based on Linseed Oil that leaves behind a hard durable surface that can withstand any foot traffic. This is a relatively thin stain designed to search the timber surface and bond well into the surface. Its resin rich additives make it both flexible and durable and the high colour concentration ensures it looks good for as long as possible. It is recommended that two coats are applied.</p>	5 litres 25 litres	9	Decking Balustrades Garden Furniture	8—12m ² /litre per coat Varies depending on porosity of timber. First coat will soak in more product than subsequent coats	1—3 years	Brush Roller Sprayer
WOOD PRESERVER 	<p>Protek Wood Preserver is a new industry leading wood preserver for outside use. It has excellent eco-credentials containing active ingredients effective against wood destroying and wood discolouring fungi according to EN152, EN113, EN73 & EN84. Protek Wood Preserver is a clear water-borne product based on modified vegetable oil. It is low in VOC, odourless once dry and complies with all the new biocidal legislation. Protek Wood Preserver penetrates wood easily and thereby gets deep into inner layers. It is moisture regulating and provides an adhesive surface for subsequent treatment with finishing paints and wood stains (top coat). Requires 2-3 coats depending on wood species and surface characteristics.</p>	1 litre 2.5 litres 5 litres 20 litres	Clear	All un-treated External Timber	6m ² /litre per coat Varies depending on porosity of timber	5 years	Synthetic brush designed for water-borne products
STABLE COAT 	<p>A water based micro-porous coating that incorporates an ultra-high performance water repellent additive that uses nano-technology to deliver an extreme hydrophobic layer of protection.</p> <p>This coating offers long-term protection for stables and all other types of timber buildings and is also resistant to mould and fungal attack. The unique formulation has been designed to give a quick drying coat leaving a traditional finish that is peel and crack resistant. For the first treatment it is recommended that two coats be applied with only one coat needed for future maintenance and re-treatment. Extra coats will further enhance the colour and give more time before re-treatment is required.</p>	5 litres 25 litres	4	Stables Chicken Sheds Animal Housing	8—12m ² /litre per coat Varies depending on porosity of timber	1—3 years	Brush Roller Sprayer
