

Garden Furniture Makeover

Caroline Bench from Zest 4 Leisure

RIGHT: The wood grain on the curved top of the bench shows through the Royal coating beautifully

I loved the style of this new garden bench but wanted to protect it from the weather. I selected Royal Exterior in Dove Grey to offer fantastic long-term protection and a colour to tone in with this section of my garden. After no prep & just 2 coats it is now an attractive seating area for the whole family to enjoy!

Alice Children's Picnic Table from Zest 4 Leisure

I wanted to make this new softwood picnic table look prettier and as it will be sitting outside with the weather beating down on it plus rain water sitting on it, I wanted to add a protective coating. Royal Exterior is a hard-wearing water-repelling coloured wood stain coating that is perfect for the job.

Being brand new no prep was needed and only two coats of Royal Exterior Cornish Cream required to offer full long-term protection and transform it in to a lovely piece of garden furniture.
