Colour swatches have been created by matching colour labels to wood painted up in each of the colours to try and get the closest possible match to the true painted colour.

Please note that there will be variations in colour interpretation on different VDUs and printing processes may slightly alter the colours. Final colours may also be affected by the timber that it is applied to (pale softwood as opposed to dark hardwood) and could be affected if you are over-coating previous treatments. If in doubt sample pots are available.
